

CITY TOUR IN ICA

We visit the Plaza de Armas in Ica and the ICA Regional Museum, which is one of the main attractions of Ica. It has different rooms, including the bioanthropology room which shows the practice as deformations, trepanation, hairstyles, etc. Also we see the hall of the colony and republic and a replica of the Lines of Nasca, a tour involved in tasting the national drink of Peru known as Pisco and wines.

CITY TOUR IN ICA – TASTING THE NATIONAL DRINK OF PERU

We begin our visit to one of the industrial wineries where the grape brandy known as pisco is more developed. Here an experienced worker has made us a guided tour of all the facilities so we can learn about the pisco and wine. After completing the entire visit will be invited to sample the full range of pisco and wine produced in this place. After this tour we will visit an artisan winery which is in the Ique countryside, where we learn about the production of pisco and wine in a traditional way. Here we will take a guided one of this winery workers who will provide us with all the information on the development of pisco and wine tour. They will then be invited to sample the entire production of wine and pisco.

Our tour continued with a visit to the regional museum of Ica. This important museum allows us to learn about all cultures that developed in this department also will appreciate important collections of ceramics, textiles, mummies, deformation of skulls and remains of ancient cultures.

Finally we head to Huacachina where you can enjoy the beautiful scenery and can take a walk around and take pictures. This place is surrounded by large dunes it allows visitors to practice one of the most popular this place on sand table (sandboarding) sports. At the end of this tour will be transferred to your hotel. End of program.
